

## Noventis bursary guidelines 2019

Noventis Credit Union is proud to be able to give back by providing bursaries to deserving students who live in our communities. We are excited to offer two, \$500 bursaries to deserving students in each of our communities.

### **You may be asking....**

*How can students qualify for the bursary? Are there any specific criteria?*

We are looking to help students who exemplify the core values we hold dear at Noventis.

Here's a snapshot of what we are looking for in our bursary recipients:

- to be in good academic standing with an established plan to attend a recognized post-secondary institution, including: trades, colleges, universities, apprenticeship programs, professional or technical studies
- to always be in pursuit of the highest standards of ethics and respect
- to present a positive attitude and outlook
- to strive to demonstrate an exceptional level of accountability
- to portray a spirit of cooperation and teamwork
- to demonstrate strong leadership skills
- to be committed to the sustainability of their community - through community involvement and volunteerism

*Who will select the bursary recipients?*

We leave the selection of the recipients up to the schools and/or awards committees themselves. That's because we know that the teachers and other school staff likely know their students better than we do. We ask that those who do the selecting use our criteria to help them reach their decision.

*What will we need from the selected students?*

We will need a few things from the bursary recipient to make sure they get their award. These things include:

- Current identification
- Proof of enrolment in the program of their choosing
- Proof of payment of tuition

Once these items are in place, the student can call or email us. The process is usually fairly quick and easy.

If you have any further questions, feel free to email us at [info@noventis.ca](mailto:info@noventis.ca).
